Dear Colleagues

Your police federation was created by an act of parliament, and has as its common aim, the representation of its members either individually or collectively, in order to improve and support their conditions of work. We will continue to be an inclusive organisation, representing the interest of all federated members.

We face an ever changing, and challenging environment, and will do our utmost to provide the professionalism expected of us. We will do that by, being caring, and courteous in the delivery of our service, and by continuing to strive to be the most proficient in all that we try to achieve, and hopefully the membership will reap the benefits, of our endeavours

The carrying of a firearm and the command and control of authorised firearms officers is central to our core role in delivering the CNC mission statement. Members should be absolutely assured that in the event that they make the decision to use, or authorise the use of firearms in the course of their lawful duty, they will be fully supported by both their staff association and experienced solicitors in this area of work funded completely by your police federation, throughout the whole of the subsequent investigation process and beyond.

I trust that by publishing this assurance to you the membership, it will go in some way to provide a pledge of our commitment to colleagues and their families in their time of need.

Nigel Dennis
General Secretary
Civil Nuclear Police Federation
