Capability and Capacity Review

Dear Mr Smith,

Following the recent strategic conference at which the Police Authority approved in principle adopting the capability and capacity review I thought I should place on record the full support of the Federation for the review proposals. As the statutory body tasked with representing our members on welfare and efficiency matters we see our role as being fundamental to the smooth and efficient delivery of the review.

We understand the need to move forward and modernise so as to be a 'fit for purpose Constabulary'. Positive change will benefit the membership as well as the CNC. The vision outlined by our ACPO team is fully shared by the Federation and we look forward as a key stakeholder to its realisation.

In order for this to happen adequate funding and resources must be in place. The Federation would therefore welcome early reassurance from the Authority that the necessary financial commitment to support the implementation of the review proposals will be fully met.

Yours sincerely

Nigel Dennis
General Secretary
Civil Nuclear Police Federation

Peter Storey
Chairman
Civil Nuclear Police Federation
